Kenya Single Registry

Evelyn W. Mwangi, Senior ICT Officer, SPS

22 March 2018

Single Registry

- A **policy tool** to provide a single point of reference for information social protection sector in Kenya
- Consolidates programme information from different social protection implementer's MIS into one web portal.

Our Journey

2011 — The Management Information Systems Working Group is formed to strengthen safety nets systems.

2012 — The National Social Protection Policy is approved, and the Social Protection Secretariat is established to strategically coordinate the sector.

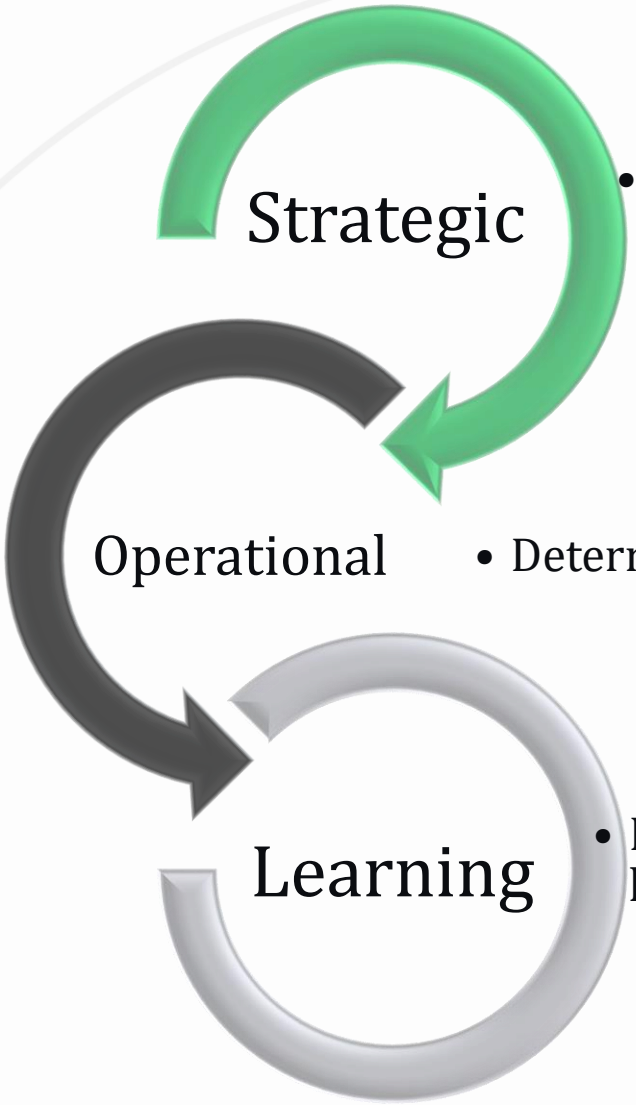
2013 — Inua Jamii is launched to consolidate programmes into a national safety net.

2014 — Inua Jamii programmes link their MISs.

2015 — The World Food Programme joins the Single Registry. Management dashboards are developed and the system is linked to the Integrated Population Registration System.

2016 — The Single Registry is officially launched.

Goal



- Effectiveness of policies, strategies and resources
- Determine how systems can be strengthened
- Provide evidence and share and document lessons learned for action

Functions

- The Single Registry specifically perform the following functions:
  - **Maintain an inventory of all social protection programmes in the country.**
  - **Prevention Error/Fraud.**
  - **Programme Efficiency and Effectiveness.**
  - **Monitoring Programme Implementation.**
  - **Basis for Emergency Response and other Complementary Initiatives.**
